

Cookie Policy of www.autotrasportiinnocenzi.it

This document contains information regarding the technologies that allow this Application to achieve the purposes described below. These technologies allow the Owner to collect and store information (for example, through the use of Cookies) or to utilize resources (for example, by running a script) on the User's device when the latter interacts with this Application.

For simplicity, in this document, such technologies are collectively referred to as "Tracking Tools", unless there is a reason to differentiate. For example, although Cookies can be used in both web and mobile browsers, it would be inappropriate to talk about Cookies in the context of mobile applications, since they are Tracking Tools that require the presence of a browser. For this reason, within this document, the term Cookie is used only to specifically refer to that particular type of Tracking Tool.

Some of the purposes for which Tracking Tools are used may also require the User's consent. If consent is given, it can be revoked freely at any time by following the instructions contained in this document.

This Application only uses Tracking Tools managed directly by the Owner (commonly referred to as "first-party" Tracking Tools). The duration and expiration of first-party Cookies and other similar Tracking Tools can vary depending on the settings defined by the Owner. Some of them expire at the end of the User's browsing session.

Activities strictly necessary to ensure the functioning of this Application and the provision of the Service This Application uses Cookies commonly referred to as "technical" or other similar Tracking Tools to carry out activities strictly necessary to ensure the functioning or provision of the Service.

Data Controller Autotrasporti Innocenzi s.r.l. - Via Congiunte Destre, 26 04100 Latina - VAT No. 01516750591, Transporters Register No. LT620355B

Owner's email address: info@autotrasportiinnocenzi.191.it

Given the objective complexity of identifying tracking technologies, Users are invited to contact the Owner if they wish to receive any further information regarding the use of such technologies on this Application.

Definitions and legal references

Personal Data (or Data) Personal Data constitutes any information that, directly or indirectly, including in connection with any other information, including a personal identification number, makes a natural person identified or identifiable.
